

Fear Get Out Of Here

Verse 1:

We're called to be a city on a hill
So why are we all just sitting still
In silence, compliant
We're fighting things that we don't understand
Powers of darkness running through our land
We're losing, barely moving
Churches are closing
Some not reopening
There's just one thing left to do
(Say)

Chorus:

Fear (bgv's repeat)
Must go in Jesus' name
Church of God proclaim
The truth we will exclaim
Fear (bgv's repeat)
Let's get one thing clear
This ain't your atmosphere
We're done shedding tears
So fear
Get out of here

Verse 2:

We've let the shadows hide away the light
We're paralyzed and won't stand up for what
Is right, too scared to fight
The blood of unborn children on our hands
Who had no voice and had no way to stand
For life, hear their cries
The sickness is growing
But there's truth in knowing
That we're overcomers through Christ
(So)

Repeat Chorus

Bridge:

The Lord is my light and my salvation
He is the stronghold of my life
He is my help in times of trouble
Whom shall I fear when He's by my side

Half Chorus: (breakdown)

Fear (bgv's repeat)
Must go in Jesus' name
Church of God proclaim
The truth we will exclaim
(Mod)

Repeat Chorus
