

Have Faith  
written by Victoria Bowlin

Verse 1:

Then you think you've got it all planned out, down to the last whim  
and you've prayed and prayed, but no answer seems to come  
Oh, the Lord is right beside you, so just put your trust in Him  
All your questions will be answered, and you'll find a strength within

Chorus:

Have faith that God is gonna move right in on time  
and believe Jesus knows the path that you must trod  
When the only thing we see is right in front of our face  
My Lord sees the big picture, He sees the end of the race  
So have faith

Verse 2:

You feel your time has been wasted on the things you have prayed for  
because it's taken so long for the response  
But God knows your delay, and it's all part of His plan  
He is preparing you for things that lie ahead

Chorus:

Have faith that God is gonna move right in on time  
and believe Jesus knows the path that you must trod  
When the only thing we see is right in front of our face  
My Lord sees the big picture, He sees the end of the race  
So have faith
