

I Wanna Remember
Written by Victoria Bowlin & Logan Smith

Verse 1:

When the phone rang this morning
A familiar voice was heard
It was the sound of my Grandmother
I hung on every word
She laughed about Granddaddy
And the silly things he'd say
Asked me when I'd come to see her
Then told me all about her day
Before we hung up the phone she said I love you
I said I'm on the road I love you and I'll see you soon

Verse 2:

When I got home the next week
Another call came in
This time it was Paw Paw
Asking how my trip had been
He said that him and Maw Maw
Had a date the night before
And told me even after sixty years
Somehow he loved her more
I thought about the day when I have my own family
I hope that I can just be half of what they've been to me

Chorus:

I wanna remember
Every wrinkle on their face
The childlike twinkle in their eye
And their warm embrace
I wanna remember
The conviction in their prayers
How they taught us to love Jesus
'Cause they wanna see us there
In the sweet by and by
I wanna remember

Bridge:

Now that they're in Heaven
Each day here that remains
Brings bittersweet memories
That leave a smile on my face

Chorus 2:

I wanna remember

Every wrinkle on their face

The childlike twinkle in their eye

And their warm embrace

I wanna remember

The conviction in their prayers

How they taught us to love Jesus

'Cause they wanna see us there

In the sweet by and by

Where we won't have the tears to cry

I wanna remember
