

Knock On Heaven's Door For You  
written by Victoria Bowlin

Verse 1:

When things don't seem to go like you think they should  
And when times get so rough, you feel you can't be understood  
Even then God is watching you  
And He'll send that special someone to do what you don't think you can do

Chorus:

When prayer seems a million miles away, that's when God is holding you  
You know you don't wanna stay in the place you're going through  
God will send that special one, a friend that is so true  
They'll lift you up in prayer, and knock on Heaven's door for you

Verse 2:

We all have hard times, we wish that life was easy  
but God gives us valleys before the mountains we can't see  
Through the storms our comfort is not far  
For the friends we love so dear, God sent as a strength so He could heal our scars

Chorus:

When prayer seems a million miles away, that's when God is holding you  
When prayer seems a million miles away, that's when God is holding you  
You know you don't wanna stay in the place you're going through  
God will send that special one, a friend that is so true  
They'll lift you up in prayer, and knock on Heaven's door for you  
They'll lift you up in prayer, and knock on Heaven's door for you  
Knock on Heaven's door for you  
Knock on Heaven's door for you
