

Peace Be Still
written by Victoria Bowlin

Verse 1:

While fishing in a boat one night, the storm crashed all around
The disciples were gripped with fear, Jesus could not be found
When they saw Him asleep below, they could not believe their eyes
They woke Him from His slumber, He looked at the sea and cried

Chorus:

Peace be still, and the winds and waves, they had to obey
When He cried peace, the storm it just could not stay
When you're ever in doubt and think the storm will never end
Wake the master, and fully trust in Him
'Cause when He speaks to the storm, there has to be peace

Bridge:

When the storms of life come with all their might and try to bring you down
Call upon God's name and as fast as they came, they will flee when they hear Him say

Chorus 2:

Peace be still, and the winds and waves, they have to obey
When He cries peace, the storm it just cannot stay
When you're ever in doubt and think the storm will never end
Wake the master, and fully trust in Him
'Cause when He speaks to the storm, there has to be peace

Peace, peace, wonderful peace, coming down from the Father above
When you're ever in doubt and think the storm will never end
Wake the master, and fully trust in Him
'Cause when He speaks to the storm, when He speaks to the storm
Yes when He speaks to the storm, there has to be peace
Wonderful peace
